

A Food Chain in the Oak Woodland of Circle J-Norris Ranch

Who eats what?

- 1.) Draw pictures and then write the names of the organisms that are in your food chain.
- 2.) Draw arrows to show the flow of energy from the sun to the plant and then to each organism along the food chain.
- 3.) Write a simple story that describes your food chain.

Producer

Primary Consumer
(herbivore or omnivore)

Secondary Consumer
(omnivore or carnivore)

Decomposer

Write a story about your food chain: _____

_____.
