BEHAVIORAL INTERVENTION SERVICES

The Bright Future Program offers both Comprehensive Behavior Services (CBS) for children with a diagnosis of autism spectrum disorder (ASD), as well as Focused Behavior Services (FBS) for children with developmental delays and/or behavioral challenges ages 3-22. Evidence-based interventions, based on the principles of applied behavior analysis, are used to address the core deficits of ASD and teach children critical skills in the home and community.

PARENTAL INVOLVEMENT

Ongoing parental involvement is a cornerstone of the program. Parent consultation and coaching is provided so that newly acquired skills can be used throughout the day. Family priorities are identified, and individual progress is reviewed on a regular basis.

QUALIFIED STAFF

Bright Future Behavior Consultants are comprised of Board Certified Behavior Analysts (BCBAs), Board Certified Associate Behavior Analysts (BCaBAs), and Qualified Autism Service Providers.

Bright Future Behavior Tutors are provided with an initial 40 hours of training in applied behavioral analysis, and deliver direct service to the child under the ongoing supervision of Behavior Consultant staff.

A RANGE OF SERVICES

Each program is individualized to meet the specific needs of the child and their family. Available services include:

- 1:1 In-Home Behavioral Services
- Behavioral Intervention Planning
- In-Home Parent Consultation
- Group Parent Training
- Functional Communication Training
- Social Skills Training
- Feeding Consultation
- OT, PT, and SLP Consultation as needed

GETTING STARTED

Bright Future accepts Medi-Cal, Private Health Insurance, and CVRC-based funding. Contact us and we can help walk you through the process.
