

Field Science Day at Circle J- Norris Ranch

Exploring the wonders of nature while conducting real-world,
scientific studies

Get Ready for a Day of Discovery!

Join us for an exciting outdoor event focused on **field science** and **nature exploration**. This is a fantastic opportunity for students and families to learn about the natural world through hands-on activities and field-data collection.

Event Highlights

- Insect identification
- Vernal pool monitoring
- Bird nest monitoring
- Explore temporary wetland habitats
- Work in small groups on a beautiful conservation property
- Collect information to help create informed decisions about land management practices

This event is for students and families interested in conducting field studies at our conservation property in the foothills above Springville. Learn to identify aquatic insects, crustaceans, and other invertebrates, discover the amazing diversity of local plants, observe fascinating insects, and monitor the vernal pool ecosystems - our own local, temporary wetlands.

All equipment provided.

Event Details

Date: Friday, February 13, 2026

Time: 9:00 a.m. - 2:00 p.m.
