## Moving Forward: Accelerating Student Learning

Join us as we explore ways to transform your approach to support all learners. Equip yourself with the skills and knowledge to accelerate learning, build students' confidence, and help them achieve their full potential. Don't miss this opportunity to learn evidence-based strategies to accelerate learners in a whole class or small group setting.

Together we will:

- Learn the definition of learning acceleration and how it shifts the focus from remediation to forward progress.
- Explore evidence-based strategies tailored to meet diverse student needs.
- Learn how to move students forward by bridging unfinished learning to current content through the use of prior knowledge.
- Collaborate with peers to plan intentional lessons that link learning and build conceptual understanding.
