(laptop or tablet)

Build a bridge between phonics and comprehension by developing reading fluency in elementary learners. Smooth, expressive reading is critical to engage all readers in understanding complex text. We will explore different high-yield texts, tools, and lessons that can be incorporated into daily reading instructional practices. Assessment, whole class, small group, and one-on-one instruction will be addressed, as well as word study and comprehension into a tiered system of support. Join us to create a culture of literacy where fluency and reading thrive!

Participants of this workshop will receive a copy of *The Megabook of Fluency* by Timothy V. Rasinski & Melissa Cheesman Smith.
