Tim A. Hire, County Superintendent of Schools

Best Practices for LTELs to Increase Reclassification Grades 5-12

This interactive workshop empowers educators with practical approaches to accelerate the language growth and academic achievement of at-risk and long-term English learners (LTELs). Together, we will examine proven methods for embedding intentional language instruction within content-area teaching, helping students strengthen English proficiency while mastering rigorous academic standards.

Learning Outcomes:

- **Recognize LTEL Profiles and Needs:** Identify common characteristics, learning patterns, and barriers to progress that LTELs encounter
- **Blend Language Goals with Content Learning:** Apply strategies that make disciplinary content accessible while fostering growth in English skills
- **Implement High-Impact Practices:** Engage with evidence-based strategies that build comprehension, increase active participation, and support development across all four language domains—listening, speaking, reading, and writing

By the end of the session, participants will walk away with ready-to-use strategies and a deeper understanding of how to move LTELs toward reclassification and academic success.
