## iELD to Support LTELs in Math

In this interactive workshop, participants will engage in learning experiences designed to deepen their understanding of how to create language-rich and inclusive mathematics classrooms. Educators will develop instructional practices that amplify students' mathematical language and positively position long term English learners (LTELs) as capable.

### *What We'll Dive Into*

- Explore strategies, tools, and best practices to make math more accessible, equitable, and inclusive — especially for LTELs.
- Learn how to integrate English Language Development standards into math lessons.
- Collaborate with peers to plan realistic, actionable next steps for your own classroom.
