Administrators are the linchpin of implementation - the leaders who articulate urgency, the ears and eyes to assess what needs to be done for English learners, the supporters for teachers and staff engaged in the hard work of changing practices, cheerleaders and critical friends, a reminder to keep the focus on

students, and the manager of critical resources needed to support the work. This series of five modules (over a two-year period) is designed to support district and site administrators as they take up the challenge of doing all of this to enact the comprehensive English Learner Roadmap policy.
