Building Thinking Classrooms: *A Thinking Student is an Engaged Student*

In this three-day series, discover how to transform your classroom into a dynamic environment that fosters deep mathematical thinking. Thinking Classrooms establish the optimal conditions for learner-centered, student-driven inquiry, where students take ownership of their reasoning, problem-solving, and evidence-based thinking in both math.

Experiential and Technical Outcomes

- Learn initial strategies to implement Thinking Classroom practices
- Experience tasks that you can apply immediately
- Deepen understanding of the 14 research-based practices for building a thinking classroom
- Engage in strategies for solidifying student learning through learning maps, lesson consolidation, and meaningful notes
- Go beyond Toolkit 1

The books, *Building Thinking Classrooms in Mathematics* and *Mathematics Task for the Thinking Classroom Grades K-5*, by Peter Liljedahl will be provided.

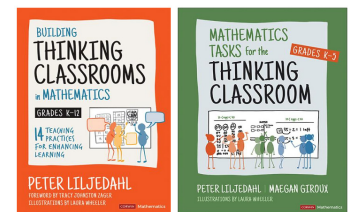

Grades K-5

Session 1: October 6, 2025

Session 2: November 6, 2025

Session 3: February 26, 2026
