BYOD: Bring Your Own Device
(laptop or tablet)

FRESNO PACIFIC UNIVERSITY COURSE:
Math Proficiency

Tulare County Office of Education

Tim A. Hire, County Superintendent of Schools

What Makes for Rich Instruction?

Is it my curriculum...the task I'm choosing...my students? What makes for rich instruction? Come learn what Standards for Math Practices (SMP) rich instruction is like and how you are the key to your students' success in math.

The Standards for Math Practices are designed to be student-centered and empower students to develop strong mathematical habits. However, the math practice standards are often ignored or misunderstood. Our session will help you use the curriculum and materials you already have to provide an environment where students thrive and see themselves as mathematicians. Using the Standards for Math Practices to plan instruction will ensure ALL students have access to the math. Why? With SMPs at the forefront of instruction, students will be sense makers, problems solvers, collaborators, and more engaged in learning during math time.
