

JOB DESCRIPTION

Job Title: Behavior Intervention Resource Consultant I (9809)
Behavior Intervention Resource Consultant II (9810)

Job Summary:

Under the direction of the department administrator and/or designee, provides assistance and supervision using the principles of applied behavioral analysis to Behavioral Health Services staff and school staff as they work with children with various mental health and behavioral needs. They act as a liaison and are expected to effectively communicate within agency, as well as with families, school staff, and partnering agencies to enhance the delivery of mental health services for children. Must be able to work a flexible schedule in order to meet the needs of the children; early morning, evening and some weekend work may be required.

Distinguishing Characteristics for Behavior Intervention Resource Consultant Job Series I and II

The job series is designated as a transition classification where incumbents at the first two levels are expected to continuously pursue certification as a Board Certified Behavior Analyst (BCBA) from the Behavior Analysis Certification Board. The level and complexity of individual work assignments are commensurate with work experience and certification achieved.

The **Behavior Intervention Resource Consultant I (9809)** is the entry level in the job series. Incumbents must be enrolled in an approved BCBA program, with the ability to accrue practicum hours as outlined by the Behavior Analyst Certification Board (BACB). Incumbents work under close supervision while carrying a caseload.

The **Behavior Intervention Resource Consultant II (9810)** is for the consultant who has obtained BCBA certification from the Behavior Analyst Certification Board and has at least 3 years working within an educational setting. This position will be filled based on program need, program budget, satisfactory work performance, and the recommendation of immediate supervisor.

Essential Duties:

- Acts as a liaison between the Behavioral Health Services mental health treatment team for a student, the IEP team, and the additional school staff.
- Participates in IEP meetings and student staffings as a representative of Behavioral Health Services, providing progress updates, assessment reports, discussing recommended interventions and supports, and other meaningful engagement.
- Creates and oversees the data-collection processes, maintains data, and analyzes data for the purpose of monitoring the progress toward mental health goals, as well as making data-driven decisions to meet the mental health needs of students.
- Participates/functions as a positive team member for the purpose of enhancing/sharing knowledge and skills for delivering best practices.
- Assesses present developmental and behavioral levels in critical domain areas for the purpose of developing and implementing effective behavioral strategies to meet the mental health needs of students.
- Participates in the development, implementation, and evaluation of mental health services and interventions in a variety of settings for the purpose of delivering effective programs to children with various mental health needs and severe behavior problems.
- Provides behavioral consultation to family members and other significant persons that work with the student, to enhance effectiveness of their interactions with children with various mental health needs and severe behavior problems.
- Assists family members, school staff, Behavioral Health Services staff, and various other agency personnel for the purpose of implementing effective behavioral strategies to support the student's IEP goals.
- Assists family members, school staff, Behavioral Health Services staff, and agency personnel for the purpose of implementing instructional and behavioral strategies to effectively work with children with mental health needs and severe behavioral problems in the educational and community settings.
- Counsels/consults with parents, school staff and Behavioral Health Services staff in collection/documentation and writing data related reports for the purpose of on-going mental health services planning and review.
- Assists school staff to collect/document/write data-related reports for the purpose of on-going service planning and review.
- Communicates/interacts with children, family members, school staff and various other agency personnel for the purpose of sharing information pertaining to the student's educationally-related mental health services.

- Conducts staff development and behavioral training to parents, districts and Behavioral Health Services staff for the purpose of developing expertise in training recipients in the essential skill areas to effectively address the behavioral deficits commonly experienced due to various mental health needs and severe behavioral problems.
- Works collaboratively with the Behavioral Health Services team and the IEP team to develop, evaluate, and modify IEP goals related to educationally-related mental health services for a caseload of students with various mental health needs and severe behavior problems.
- Provides crisis management services and mental health rehabilitative services as appropriate and necessary.
- Accurately documents student service rendered in the Electronic Health Record system.
- Maintains an efficient and productive daily schedule for the purpose of providing services, completing reports, submitting progress notes, and other duties.
- Adheres to safe, clean practices for the purpose of maintaining sanitary environment for students, family members, and other members of the Behavioral Health Services team.

Responsibilities include: working under supervision using standardized routines; leading, guiding, and/or coordinating others; and operating within a defined budget. Utilization of significant resources from other work units is routinely required to perform the job's functions. There is some opportunity to significantly impact the organization's services. The usual and customary methods of performing the job's functions requires the following physical demands: some lifting, carrying, pushing, and/or pulling; and significant fine finger dexterity. Generally, the job requires 85% sitting, 5% walking and 10% standing. The job is performed under minimal temperature variations.
